GOOPAN... we build houses with the heart

Exhibitor: **GOOPAN**

Hala 6 - A 11
 FOR ARCH

Are you interested in building a low-energy house? Do you want a modern, economical house that meets all your expectations? Visit GOOPAN at booth 6A11. The company with years of experience designs and builds wooden buildings that mean family and represent modern living. The beauty of the architecture of the projects blends with the functionality and thus combines a distinctive lifestyle. In addition to the construction of standard houses, designed with respect to the customer's wishes, GOOPAN also deals with individual projects. The standard of all houses are technologies of the highest quality, which include, for example, a recuperation unit or photovoltaics. Thanks to the right procedures, materials and technologies used, GOOPAN can guarantee long-term low operating costs, because all houses are built from the ground up in a low-energy or passive standard. Visit the GOAAN 6A11 stand and find out about new houses or trade fairs.
