Vernisage

The opening ceremony of a set of spring housing fairs, design and gardens took place on March 22, 2018 in DESIGN FRIENDLY MEDIA CAFE, at HALL 3 with the participation of prominent guests.

BYDLENÍ, NOVÉ PROJEKTY

Gala evening

The second day of the fair was a gala evening in P.M. CLUB & COCKTAIL MUSIC BAR, this time in the spirit of the 80s, under the baton of the legendary DJ Miloš Skalka. Within the evening, the results of the professional competitions GRAND PRIX and TOP EXPO were announced and the entertaining program - performances, competitions and dancing continued.

The traditional 25th edition of the construction fair FOR HABITAT again started the spring fair of the housing season and confirmed that it is ideal opportunity to meet at one time and at one place with news and trends in the given industry. The structure of this trade fair consists mainly of fixed building and interior elements - floors, windows and doors. Great popularity in appearance for the spring season, it has received presentations of family swimming pools, whirlpools and roofing not only swimming pools, but also increasingly popular terraces or conservatories, parking spaces. This year attracted completely new exhibitors from the field of shading technology (ALARIS, SUNSYSTEM, TECHNOROL) and increased the average size of the area on which domestic businesses presented their news and showed that they still have something to offer and enrich existing range of products on the market and that they are not afraid to invest in a larger and sophisticated implementation of their presentation.

Exhibitors' presentations at FOR HABITAT and concurrent fairs have traditionally been complemented by a rich and varied accompanying program, the visitors could benefit from free advice and find interesting inspiration for their construction or reconstruction.

We believe that everyone enjoyed spring trade fairs and found good business opportunities and that we will meet again in abundant numbers next year.
