ROCK PARTY

The second day of the fair saw a ceremonial evening in Club Rock Café, this time in the spirit of rock. The results of the GRAND PRIX and TOP EXPO competitions were announced in the course of the evening. The programme climaxed with a concert by Queenie, the most successful Queen tribute band in the Czech Republic. The entertainment did not stop there, however, and was followed by dancing and a prize draw.

Number of exhibitors: 121 / Net exhibition area: 2 080 sqm

Fair began on Thursday 21 March on the very first day of spring and kicked off the fair season for homes. This year attracted new shading technology companies and there was understandably considerable interest among visitors just before the summer. The exhibitors confirmed that personal contact with the lay and expert public is of massive importance to them and that in this regard attending the fair is of crucial, irreplaceable significance to their marketing activities. It was again shown that the exhibiting firms are placing greater emphasis on the quality of their presentations, with set-up times longer and stands thought-out to the tiniest detail.

We firmly believe that this alignment of spring fairs has been and will continue to be a source of beneficial business opportunities for all those involved and that we will all come together in large numbers again next year. We would once again like to thank all exhibitors for the trust they have shown in our fair and for all the effort they made in putting together their presentations at the event.

FOR GARDEN

The FOR GARDEN Fair 2019 was again bigger than in the previous year, both in terms of the number of exhibitors and the size of the show area. Firms dealing in garden needs and decorations from Great Britain were in attendance for a second time at a B2B gathering organised by the British Chamber of Commerce and the American Chamber of Commerce.

The fair has now become a regular source of inspiration for those that are looking for ways to improve their gardens and for those that have decided to create a garden and fit it out from A to Z. It was clear from the perfect stands that the firms exhibiting here are placing ever-greater emphasis on the quality of their own presentations. Visitors were able to appreciate the outstanding products and services on offer and the unique way in which they were presented. We can now say with pride that FOR GARDEN has become the biggest trade fair in the Czech Republic to focus on the garden as a whole and the whole spectrum of garden specialisations. It has down the years become established as a respected fair.

DESIGN SHAKER mixed the best cocktail of interior design!

The eighth year of the event again introduced interior trends to the public and created a platform for creators, interior architects and manufacturers to meet. This year's curator was **Ing. arch. Hana Medková**, who supervised the choice of firms and the showpieces on display.

There were some prominent people from the field on hand during the event at talks, workshops and the rest of the accompanying programme at the **Media Café**, which was this time the hub of the entire event.

BIG DEAL – established and new brands and studios came to present themselves in this section with their own stands.

FRESH SPACE – a platform for young and novice artists, small studios and designers in the simple format of atypical booths. Visitors also had the chance to see into the studios of home architects and designers, with whom they could talk about design and architecture, look at aspects of their projects and get advice on their own projects or ideas.

2019

The ceremonial opening also involved the announcement of the winner of Furniture of the Year 2019, a competition organised every year by the Association of Czech Furniture Makers.

The title of Furniture of the Year 2019 went to: **TON a.s.** for its **CHIPS lounge armchair**, designed by Czech designer **Lucie Koldová**.

The evaluation committee at the Association of Czech Furniture Makers were unanimous in saying that, „The CHIPS armchair was rewarded for its workability in the spirit of TON products and at the same time the considerable invention of a shape developed from the structure of bentwood furniture“.

Visitors also had the opportunity to see a selection of the winning showpieces in the DESIGN GALLERY at the DESIGN SHAKER show space.

SVĚTLO V ARCHITEKTUŘE

Number of exhibitors: 25 / Net exhibition area: 500 sqm

Professionalism, top-class products, inspiration and comprehensive information ... in the best light ...

This unique event again presented trends, innovations and technology, from Czech and global brands in the field. Students from selected schools were also on hand to present their semester and graduation work. The exhibition is mainly intended for the expert public, although the aim is also to properly guide those interested in this subject among the general public. Experts and those interested in quality lighting had the opportunity to familiarise themselves with the products displayed by the exhibiting firms and to take part in an attractive accompanying programme, which was at a highly professional level thanks to cooperation with business partners. The exhibition is staged once every two years and the next one will take place in the spring of 2021.
